## TRAVEL INSURANCE

## **Why Travel Insurance**

Imagine making all your payments and the week of vacation you come down with a stomach bug. Or even worse your luggage is lost and you replace everything. Things happen that can cause a trip interruption or cancellation and it would be good to have the peace of mind knowing you are covered.

This is why I always recommend that travelers get travel insurance. This is an investment and it should be protected. There are several insurance company options, you should do your research to find which one is right for you. I've chosen to offer TravelSafe insurance exclusively based on my research as it has the most comprehensive coverage for the cost.

## TravelSafe Insurance

An industry leader for over 45 years, TravelSafe makes insurance simple. They strive for a high level of friendly service that keeps travelers cover for both international or domestic travel.

They offer a a variety of plans so that you can fit your travel needs. These benefits can include trip cancellation/interruption, missed connection, travel delay, medical expenses, baggage/personal effects lost or delays, and cancel for any reason

It's recommended to purchase your travel insurance within 21 days of making your first payment to ensure you are fully covered.

There are optional benefits like bankruptcy and default protection that covers you if the airline or travel supplier ceases operations. Coverage for tourist attacks as well as coverage for pre-existing conditions when purchased within the window.

Cancel for any reason is a great option to add onto your insurance plan to ensure you are covered for as many instances as possible.

Now remember, travel insurance ensures you can get some of your money back but it does not guarantee 100% of returned funds. As we learned with the COVID-19, there are some unforeseeable events that will not be covered by travel insurance.
